

Are you Exit Ready? TECHEXIT.io is here to help technology companies strategize their Exit

Registration for the first ever TECHEXIT.io, founded by Cube Business Media Inc., is now open. Taking place in Vancouver on February 15th, 2018 at the Fairmont Waterfront, TECHEXIT.io is the go-to event for educating technology entrepreneurs and investors on exit strategy.

In 2012 Facebook bought Instagram, a company with 13 employees and 30 million users, for \$1.0B. In 2014 Facebook bought WhatsApp for \$19B, in 2016 Microsoft bought LinkedIn \$26.2B. Technology companies today are raising more money than ever before and exiting at higher valuations. Learn from the biggest exit success stories and the mistakes, connect with the players that make exits happen, understand if you're company is prepared for an exit, if or when it happens.

From the founders of The Business Transitions Forum and SAAS NORTH, Cube Business Media, is now bringing the technology community together to talk exit strategy. Every technology entrepreneur should understand when and how Exits come up. Is it an opportunity? A goal? A necessity? Understand the ins and outs of the tech exit, be ready for it whether it's planned or not. Make your Exit a successful Exit.

TECHEXIT.io brings together technology Founders and their C-Teams, VC and Angels, Corporate Venture arms, and Advisors from Tax to Legal to Investment Bankers. Connect with all the Exit players together, under one roof.
